

# Abandon Kansas

## CHARIOT

Come tell me all your fears. You know I'm always listening  
And when the dark draws near, I'll be the light shining  
So come put your weight on me cause I got the strength you need  
And when you're dead inside I'll bring you back to life

I can be your chariot  
Carry you to the end  
When the battle rages on  
When the fight in you is gone  
I can be your chariot  
Just let me carry you  
When there's nothing left but broken roads  
I can be your way back home

You gotta let go. Be a prisoner no longer  
You're on your way up, instead of falling over  
Even though it aches, I'm not ever gonna let you break  
You can sleep tonight knowing love is here to stay

I can be your chariot  
Carry you to the end  
When the battle rages on  
And the fight in you is gone  
I can be your chariot  
Just let me carry you  
When there's nothing left but broken roads  
I can be your way back home  
I can be your chariot  
Let me be your chariot

Let me take, take the weights off your feet cast them out into the deep  
I came to set you free  
Let me be, be the reason that you need to find the hope to believe in love, you gotta believe in love

I can be your chariot

I can be your chariot  
Carry you to the end  
When the battle rages on  
And the fight in you is gone  
I can be your chariot  
Just let me carry you  
When there's nothing left but broken roads  
I can be your way back home

I can be your chariot  
Let me be your chariot
