"The song selection is intentionally all over the map, hopefully there is something for everyone. A few of the songs are 80s throwbacks, several are influential songs that we love, and some are just meant to be funny. We had a lot of fun recording and putting these songs together, and I am really happy with how everything turned out" – says Matt Hoopes Relient K Guitarist and A&R for Mono Vs Stereo

Relient K has a history of playing a diverse selection of cover songs in their live show, and now they are set to release one of the most fun and random collections to date.

Known for their melodic songwriting and tongue in cheek humor, Relient K has released five full-length albums (of which three have been certified Gold), six EPs and a Christmas collection, fresh off the Vans Warped Tour 2011, the band has toured incessantly, scored a string of hit singles, a Grammy nomination and two Dove awards. With all of this the bands quirky sense of humor remains intact with their entertainingly fresh yet respectful covers tribute they have deemed Relient K *Is for Karaoke*.
